

IMPORTANT NOTICE TO ALL BULKWATER DEALERS

RENEWAL OF LICENCES

The Zimbabwe National Water Authority (ZINWA) wishes to remind all bulk water companies that, in terms of Statutory Instrument 90 of 2013 (Water Permits Amendment Regulations), all **Bulk Water Licenses and Certificates** expire on December 31 2025.

Companies and dealers intending to continue operating after this date must ensure their licenses are renewed on or before December 31. Those who do not have 2025 Certificates and licenses are advised to apply, to avoid the inconveniences and penalties associated with late/non registration.

New players wishing to enter the bulk water sector are also advised to apply for the relevant certificates and licenses.

Bulk water dealers intending to surrender their licenses are also advised that in terms of the same law, they are required to notify **ZINWA** in writing at least 30 days before the stoppage of their business.

ZINWA would like to reiterate that any acts of non-compliance after the December 31 deadline will not be tolerated.

For renewals, new applications, or surrendering of licenses, please visit:
